

INTO OCTOBER

Commuter Challenge It's not too late to register! **From September 22 to October 22**, George Mason is competing with University of Maryland to see how many faculty, staff and students will travel to school or work in a more sustainable and environmentally friendly way than driving alone. It's easy to get involved!

1. Register for the Challenge: Even if you're not sure whether you can use alternate transportation, every registration counts towards victory over the Terps. To register, visit Mason's car pooling page at <http://zimride.gmu.edu/>.
2. Use Zimride to track your commutes to campus. Whether you are walking, biking, motorcycling, using Mason shuttles, van pools, or car pools each method counts as a form of alternate transportation to win this challenge. Go Mason beat Maryland!
